

Maximum Decimal Places for Amount Fields in AP Essentials

000028122 | Troubleshooting | Last updated 2026-09-09 | AP Essentials

Issue

As the "amount" fields are being rounded to 5 decimal places, what is the maximum number of decimal places allowed in AP Essentials for them?

Solution

A maximum of 5 decimal places is allowed for Amount fields.

If more than 5 decimal places are entered, then the amount will be rounded to 5 places.
