

# Does Kofax Capture 11.2 support Red Hat OpenShift Virtualization

000045935 | General Info | Last updated 2026-09-04 | Kofax Capture

Question:

Does Kofax Capture support Red Hat OpenShift Virtualization?

Answer:

Red Hat OpenShift Virtualization supports running Microsoft Windows virtual machines alongside containers, with certified versions including Windows Server 2019 and select earlier releases. For this, please review Tungsten's official statement on support for Virtual and Cloud computing environments here: [Kofax Support Statement on Virtual Computing & Cloud Support](#)

**IMPORTANT:** If the inquiry concerns specific features of Red Hat OpenShift Virtualization, the answer is NO. Tungsten Capture does not support any of its platform-specific features.

Applies to: Kofax Capture 11.2 and above
